Buddy you might think that I've lost my mind
But mister I'd pay twice to do it one more time
It cost a thousand tears and wore out my knees
But buddy that's okay the heartaches are free

You probably thought I'd used up every brain I had
But mister once you've tried you'll swear that it ain't
bad
It cost a thousand tears and wear out your knees
But buddy that's okay the heartaches are free

Hey man if she takes a notion to sell you a hit of potion
waste no time
And boss if you need a reason to pay for all her teasin'
well just take mine
It cost a thousand tears and wore out my knees
But buddy that's okay the heartaches are free
[fiddle + steel]
Hey man if she takes a notion...
Yeah I can guarantee the heartaches are free
