Inside these four walls
Ain't nobody but me
There is a place that I run to
Where there ain't nobody to please

Here's everything I wanted to say

(Through these times)
I've always held your hand
(By your side)
Everyday you couldn't stand
(I'll hold on) to see you rise again
(I'll still love) You 'til the bitter end
'Til the bitter end

I will never forget
All the things you said
I never heard you say you're sorry
I hate you for leavin' me dead

Here's everything I wanted to say
(Through these times)
I've always held your hand
(By your side)
Everyday you couldn't stand
(I'll hold on) to see you rise again
(I'll still love) You 'til the bitter end
'Til the bitter end

[Instrumental Interlude]

(Through these times)
I've always held your hand
(By your side)
Everyday you couldn't stand
(I'll hold on) to see you rise again
(I'll still love) You 'til the bitter end
'Til the bitter end

And I'll still love you, 'til the bitter end
