

Dying Fetus "Stop At Nothing"

Visit "[Stop At Nothing](#)" on MotoLyrics.com

Compelled to eternal hate, censure of the mob, submit to them

Pressured from the outside, prevailing herd mentality, fearing deviation

Traumatized, retreat and submit, habitual failure, they no longer attempt

Resist all efforts at change, practice the routine

Fake courage to impress the other sheep

All cowards in their own pointless, twisted fate

Constant friction, voicings of new converts, don't know shit

Arbitrary changes visit ownership upon me

Do I look like I need you to rearrange my realm?

Drift through the motions of your predetermined course

Escape the dreary confines of your present circle

Solve your internal conflict, mend your own life

Follow useless trends, fucking with my mind, indignant lies that I reject

I care less and less for your weak opinion, pretension, pomposity

Reinforce your fear, admonishment of fools, path of least resistance

Bottomless mass of simpletons

Uncover your own future, ignore the losers words

Endure the pessimism, projections of the timid

Escape the dreary confines of your present circle

Solve your infernal conflict, before your demise

Reinforce your fear, admonishment of fools,
[Incomprehensible]

I care less and less for your weak opinion, pretension, pomposity

You're not qualified to deliver me, realize, drop your crusade

Nothing will prevent the ends I have chosen

Agonizing reappraisal, long ago I came unto my own

Discard the worthless bullshit, comprehend the
revelations beyond
Hypocrites eating shit, choking on the spewings they
never lived by
Estimations of lesser men, self-fulfilled to their dead
ends
