When we wake up in the morning baby  
Hot kisses start the new day  
Get up straight, we cannot wait  
Rule over these whiles  
Just you and me

It's our run away to nowhere  
To comfort our hearts  
It's our run away  
Come caress me more and more

[Chorus:]  
So we are both lost  
We wanna be mad  
We feel secure in the dimension we have  
No one can steal that  
One body, one soul

It's our run away to nowhere  
To be closer to the nature  
The city left behind  
As we decided to leave

[Chorus:]  
So we are both lost  
We wanna be mad  
We feel secure in the dimension we have  
No one can steal that  
One body, one soul
