Straight ahead,
So tired of seeing you die on me,
So tired of reaching out, I see
No one wants you,
Night again,
Reach out, reach out for me,
Be brave, no one can see,
As dark surrounds you.

Chorus

Terrified of you but not running away,
My heart it was a stage, and now I play the game,
Sick of always seeing subtitles again,
You've got the wrong message running through your
brain

Memory,
It served me far too well,
Science knows not to dwell,
Till it finds you.

Chorus

Waiting for go,
Waiting for go.

Terrified of you,
Terrified of you,

Chorus (x2)

Waiting for go,
Waiting for go,
Waiting for go,
Waiting for.
