Now bein' alone baby  
Is such a hard thing for a man to do  
I wanna be with you  
So please baby  
Don't make me go through  
Another lonely night without you, aw yeah

I'll pick you up we'll take a ride  
Over to the other side  
Where we used to meet  
Over on a blackstreet, yeah  
We'll dance the night away  
Honey you don't need no money  
I've got what you need  
So we can party all night long

I don't wanna be alone baby  
I don't wanna be alone  
Won't you stay with me girl  
I don't wanna be alone baby  
I don't wanna be alone  
I wanna be with you

I know it's true baby  
A love like yours is oh so hard to find  
Come close to me baby  
So please baby don't you go nowhere  
And leave me standing here  
All by myself

Now you're always on the run  
But tonight we're gonna have some fun  
Together - Just me and you  
And we'll dance the night away  
See you don't need no money  
I've got what you need  
So we can party  
All night

I don't wanna be alone baby  
I don't wanna be alone  
Won't you stay with me girl

I don't wanna be alone baby  
I don't wanna be alone  
Won't you stay with me girl  
I don't wanna be alone baby  
I don't wanna be alone  
Won't you stay with me girl  
I don't wanna be alone baby  
I don't wanna be alone  
I wanna be with you

So baby don't you worry  
We'll take our time  
And do it right  
Yes we will  
If it takes all night  
We'll do it nice and slow ooh  
Baby don't let me go  
I just don't wanna be lonely  
Oh baby

Wowowow  
Wowowow  
Wowowowowowowow  
Wowowow  
Wowowow  
Wowowowowowowow

I don't wanna be alone baby  
I don't wanna be alone  
Won't you stay with me girl  
I don't wanna be alone baby  
I don't wanna be alone  
I wanna be with you
