[1] - It came over me in a rush  
When I realized that I love you so much  
That sometimes I cry, but I cant tell you why  
why I feel what I feel inside

How I try to express what's been jugglin' my mind  
But still can't find the words  
But I know that something's got a hold of me

[Repeat 1]

Baby, some day I'll find a way to say  
just what you mean to me  
But if that day never comes along  
and you don't hear this song  
I guess you'll never know that...

[Repeat 1]

And when I say inside, I mean deep  
You fill my soul with something I cannot explain  
What's over me  
[Repeat 1 'til end]
