Girl, just look at
You ought to know by now, baby
Oh, girl

What's wrong, sugar, can't you see
Can't you see that I'm dependant on what we've been
Through
Please don't cry, don't you know
I'd walk the deepest waters forever for you

Girl, understand I'm one man
That you will not lose
Don't give up just because
Because whenever you're confused, baby, just look at

Look in the water (Mmm)
And see for yourself (See for yourself)
Look in the water
And see (As my love grows)

Look in the water (Mmm)
And see for yourself (I'm here for you)
Look in the water
And see

Girl, I am yours {I'm yours, I'm yours}
Baby, you know yours {I'm yours, I'm yours}
Yeah, Chauncey, help me sing

Oh, you make me so-so-so-so happy
'Cause when I'm with you it's like Valentine's Day
Please don't cry, please don't, sugar
Tell me why would I throw somethin' like this so good
Away, yeah

Girl, understand I'm one man
That you will never lose
Don't give up just because
Because whenever you're confused, baby, just look

Look in the water (Oh, yeah)
And see for yourself (See for yourself)

Look in the water (Mmm...)
And see (As my love pours)

Look in the water
And see for yourself (I'm here for you)
Look in the water
And see

Girl, I am yours {I'm yours, I'm yours}
Girl, I am yours {I'm yours, I'm yours}
Baby, can you hear what I'm sayin'

Baby, just look in the water
And I'm sure that you will be able to see
That it's all about you and me
And a love that will last forever, baby

{Wow}
Ooh...ooh...ooh...oh...yeah...
Oh, yeah, yeah
{Oh, yeah}
Ooh, ooh, ooh, yeah
I just want you to see for yourself

Look in the water
And see for yourself (As my love pours)
Look in the water
And see (Girl, I'm here for you, baby)

Look in the water
And see for yourself (And I'll never let you go)
Look in the water (Oh, no)
And see

Girl, you ought to know I'm yours {I'm yours, I'm
Yours}
You ought to know I'm yours {I'm yours, I'm yours}
Girl, {I'm yours}, oh, nobody else but you, baby {I'm
Yours}
Hey, yeah {I'm yours, I'm yours}

Now ooh...oh...yeah
Ooh...
Oh, yeah
