Baby, I don't know what the problem is

This house is in
I need you in it
Abandoned home
It get so lonely
Tell me what's wrong (all hope is gone)

I can't go on

Been occupied by your memory
Three words explain why I'm here (I need you here)
I need your love (in my life)
I can't go on in misery (I can't go on)
I can't go on in misery

I can't live without you
I need you

Whooooaaaa

I can't go on
I can't go on living alone
Without your love
Can't go on this way without you baby
In my life
Life

Something about the way you love me
You complete me
I need you
Dont' take your love away from me
I don't wanna live in misery
I can't go on
No
All hope is gon
I can't live w/o you
I need you
Don't take your love away from me
