"Why, Why"

Sitting here, Looking at your picture,
You've got me reminiscing,
who thought you'd be gone
Seeing the visions of your body while my tears are
falling
Has got me losing control.
Visions of you walking away girl.
You and getting my world
I should have never let you go

Why, Why ..
How could I let you out of my life.
Why, Why
I should have never let you go,
Why, Why (oh why), why, why,
Why did you leave me girl

Walking passed the park girl,
again I'm reminiscing,
this was the first place that we kissed.
You got me losing my mind girl,
it seems like I'm wasting my time girl,
it's like our love is a missing pearl

couples holding hands,
I messed up 'cause I used to be your man,
and now I'm all alone, and here is where I stand.
In the mist of my pain girl,
Wishing you come back in my world
I cant live without you girl, Nooooo

Why, Why ..
How could I let you out of my life.
Why, Why
I should have never let you go,
Why, Why
Can you tell me why, tell me why baby girl,
why, why,
why did you leave me girl

Tell me why, tell me why, why you leave me in pain

(why you leave me in pain)
Makes you go insane, I'm facing a picture frame, I miss
you baby

Visions of you walking away girl.
You and getting my world
I should have never let you go! Noooo No
In the mist of my pain girl,
Wishing you come back in my world
I cant live without you girl, No, No

Why, Why ..
How could I let you out of my life.
Why, Why
I should have never let you go,
Why, Why (oh why), why, why,
Why did you leave me girl
Why, Why, baby my heart is aching girl

Why, Why till the end
No, No, oh no
Something I can't understand but I cant let you go, No
