Get higher, baby, uh, yo
Get higher, baby, catch the beat
Get higher, baby, ugh, yo

Get higher, baby, yo, yo, yo, yo
Get higher, baby, ugh
Get higher, baby, yo, oh
Get higher, baby

All day long, I've been thinking about you, baby
The way you kiss me girl, it's driving me crazy
All I want is to be with you girl
Baby girl, can't you see that I, I know the time is right?

I've been thinking about you every night
I just wanna be with you
I'll be there for you, take good care of you
Yo, yo, yo

Yo, love is the kind of love
That make a brother wanna shake yo game, game
Yo, love is the kind of love
That don't cause no stress, no pain, pain

Yo, love is the kind of love
That make the dogs what just wanna flip, flip
Yo love, yo this is Blackstreet, baby
You know we wanna abandon ship, feel me now

I'm on a mission and it's to get with you
When we get together, maybe we can zoom, zoom
We can spend the night
So I can meet you at the top to build ya
Drip, drop, honey love

When we're making love to this groove
Let's make it right, girl
I just wanna see you every night
I wanna be with you
So, baby, don't let me down tonight, yo, yo, yo

Yo, love is the kind of love

That make a brother wanna shake yo game, game
Yo, love is the kind of love
That don't cause no stress, no pain, pain

Yo, love is the kind of love
That make the dogs what just wanna flip, flip
Yo love, yo this is Blackstreet, baby
You know we wanna abandon ship, feel me now

This is not a phase, I go downtown like Dr. J's
Can't nobody stop my ways
Sauce Money at your service
You deserve not to be nervous

She said, "I like the way you work it"
Of course you do, you know my flow is true
Sounds like No Diggity Part 2
Maybe not though, still hot though, rip up a track

Goin' to Blackstreet so I can pick up my plaque
What you need me to bring back?
Mil, platinum earrings and silk
Gucci towers for the Cristal

Just a few acres so your dream house can get built
Well, I got that, all I got to do is write a hot track
Them Blackstreet cats got a lot, can't even feed them
You know the saying 'If you can't beat 'em'

That's what you want to look
You was the hottest thing
Well, I love you so much
That I'mma make you wish that you never meet him

Now that the time is right
I just wanna see you every night
I wanna be with you
So baby, don't let me down tonight

Yo, love is the kind of love
That make a brother wanna shake yo game, game
Yo, love is the kind of love
That don't cause no stress, no pain, pain

Yo, love is the kind of love
That make the dogs what just wanna flip, flip
Yo love, yo this is Blackstreet, baby
You know we wanna abandon ship, feel me now
