"So Far From The Earth"

Visit "[So Far From The Earth](#)" on [MotoLyrics.com](#)

So I'm finally out of this
Looking now I can't believe there's green over my deck
And I'm feeling better than fine
But it took some time, took my mind
And this rock up in the sky
This is my life and I
can have the world if I want it
And everything on it
This is my life and I
dats tuff dats tuff
dats tuff dats tuff
I've gone so far from the earth
So I knocked down all the walls for my rebirth
I've gone so far from the earth
So I knocked down all the walls for my rebirth
And no one can keep me down
No one can break my vibes
No one can keep me down
No one can break my vibes
