Don't trust me
Don't trust them
Don't you even trust your friends?

Cuz you'll die, no one gives a damn
You'll die, no one knows your name
You'll die, everybody does, cause hell is other people
and if

You think, you're really pretty smart, well..
You're wrong, like everybody else and
You'll know how right I can be cause hell is other people
and if

[Chorus:] You know what it's all about and how to get
out

What it's all about and how to get out then
You'll know hell is other people, hell is other people

[solo]

You'll die, no one knows your name
You'll die, no one gives a fuck
You'll die, cuz everybody does, hell is other people and
if

You think, you're really pretty smart
You're wrong, like everybody else
You'll know, how right I can be, hell is other people

[Chorus x2]
