Revolution and Rise

Written by Beppe Savoni and Eddie Cumana

Falling from the sky into the flames
You denied your love I went insane
No more dreams for my nights
No more sunshine for my eyes

Victim of my own wish to be free
I am an angel flying under your feet
Heaven is not in the sky it is right inside your heart

I will never stop [To love you]
I will always be [Beside you]
I will never try [To hurt you]
I will always shine [Above you]
I will break the chains [Believe me]
We are all the same [In my heart]
Passion will be back
Join my revolution and rise!

Revolution is for redemption hooo
Life is coming back to me
Revolution is for redemption hooo
That's the way to be free
Revolution is for redemption hooo
Life is coming back to me
Revolution is for redemption hooo
That's the way to be free [x16]
Be free! [x3]

Caught up in a mirror of memories
I am a slave of your morality
Now I know it will change
Revolution is the way
Open up your heart and come to life
Turn the death of love into a flight
Heaven is not in the sky it is right inside your heart

I will never stop [To love you]
I will always be [Beside you]
I will never try [To hurt you]

I will always shine [Above you]
I will break the chains [Believe me]
We are all the same [In my heart]
Passion will be back
Join my revolution and rise!

Revolution is for redemption hooo
Life is coming back to me
Revolution is for redemption hooo
That's the way to be free
Revolution is for redemption hooo
Life is coming back to me
Revolution is for redemption hooo
That's the way to be free [x16]
Be free! [x3]

That's the way to be free
Revolution-ha-ha-ha
To be free!
Revolution-ha-ha-ha
To be free!
Revolution-ha-ha-ha
Be free
Be free
Be free!

Revolution-ha-ha-ha [loop]
BE FREE! [loop]
