Mourn not for I have left behind  
All hate, anguish and misery  
Mourn not for I no longer  
Love for the soul of evil

Mourn not I have gone  
To the eternal bliss of the final embrace  
So for me there is no need to mourn

As I rest in peace

My Last Wish  
Another rainy day is darkening my life  
I am looking through the window and I see your shade

Why are you so far ?  
I can't take the pain  
So come to explore my mind and see my fear

I tried a million times to change the course of destiny  
In my dreams, in my nightmares or in my acts

Why are you so far ?

I can't take the pain  
So come to explore my mind and see my fear

Don't fear these words another soul is dying  
Because somewhere someone will take your place

I am praying for the shadows in the silence  
They're whispering in mind  
The melodies of my heart  
Show us new horizons  
I feel so lost without yours hands  
Just a touch, an illusion  
All my love of life is gone  
And I understand your cries in the sand  
The light before my eyes is off  
Wait for me to see our child  
When he'll open the eyes to the world  
This my last wish
