Every night I pray for a dream you star in
And every night I pray for a chance
You'll be there when I wake

The truth of it is
Nothing I do will bring you back
So I'm waiting for my ride up into the sky

And I will meet you there
I will meet you there
And I will meet you there
I will meet you there

You left such a strong resonance
Just to feel you all around
I know you're watching over us
Like the angel you've always been

The truth of it is
Nothing I feel will bring you back
So I'm waiting for my ride up into the sky

And I will meet you there
I will meet you there
And I will meet you there
I will meet you there

I love you so much more than
Just the heart beating in my chest
I love you so much more than just this heart
I love you so much more than
Just the heart beating in my chest
I love you so much more than just this heart

The truth of it is
Nothing I feel will bring you back
So I'm waiting for my ride up into the sky

And I will meet you there (in the sky)
I will meet you there
And I will meet you there (in the sky)
I will meet you there

I love you so much more than just this heart
I love you so much more than just this
