Love your god. God loves all  
So called "love" is so confused  
So called love starts all wars... racism... genocide  
Jesus, fuck your love  
Based on a book with no interpretation  
Liar, user, faker  
Use this tool to rape and fuck this nation

America, where's your love?  
Show your love with the deaths of many?  
Country founded on the bloodshed.  
Keep the masses fighting over money

Fuck you. You're a lie and I won't be part of it  
Trust you. I will not bow.  
I've seen too much to ever fucking love you  
Faith built on other's pain

Christian: another way of spelling genocide  
Conquest: the name of god  
Nation: controlled by the moral right  
Based on all that is wrong

Love for country, love for system  
So called "love" is so confused  
So called love murdered million, justified  
The death of your song  
And you'll never be happy  
Fuck your love

Jesus, fuck your love, and the USA  
Nailed to your cross, it should have been a dollar sign

We can't be part of you, hate all that you do  
No love I can see, for god or country.
