[instrumental]

Hopelessly devoted to youâ€¦..

Hopelessly devoted to youâ€¦..

Oh I killed a girl once, it was no accident

Put the gun right to the back of her head and blew her
brains right out the front

I was in love

I strangled mine

Did you love her?

It was ok, ok

Maybe I am a killer

Why should you care you just stay around here to fuck
my mother and eat her food

Matt!

Oh ye'moves

Your are a fucking asshole, trust Tim, Tim

Motherfucker (Matt)

Food-eater

Im gonna shove this up your ass

Why did you kill her?

She was talking shit

This is a comfortable pig, I remained celibate for you, I

stood at the back of the cathedral waiting in celibacy

for you with 300 friends and relatives in attendance

My uncle hired the best jamaican caterers in the state;

to obtain the 7 limousines for the wedding party my

father uses his last favors with mad peopleâ€¦

hopefully, for my mother, my grandmother, my father,

my uncle, and for the common good

I must kill now you

Am I looking masochist, am I looking to be tormented
further

I was raging inside, there was, I was raging inside,

there was thisâ€¦. incredible energy

I hated her, I can't get away from her, were still fighting

She's literally, she's like a puppet on a framerâ€¦and I

entertainer, she knows all my buttons and I dance like a

puppet with that pain, and I said she's got to die and I

gotta die

I cut off her head, and I humiliated her corpse
But I never hit her, I killed her but I didn't hit her
We're Bikini Kill, And we want revolution!

And the transformer looked into my damned soul, and
stepped back and the scene never end
He had pictures of guys getting hit, went missing , kids
tied up and with marks on them things
I didn't need no gun, I did mine with my hands, I was
right there, I was right on top of her, I was face to face
I wasn't even mad really, she looked so surprised, she
was soo, in a few minutes
Her faced puffed out and it turned dark purple and she
just stared at me
She couldn't move
She couldn't scream
I had total control of her
I had total control of her
It felt soo real, she was dead there in front of me and
I felt soo fucking alive
