Visit "[Clap Again](#)" on MotoLyrics.com

And now the music is finished the show
People are going and with them you
I know...

It's sad to stay here alone
While you're moving away
Clap again...

And you play
Why you play?
If the people go away
Leaving you with the music along

And you cry
Why you cry?
If you are living in the night
She's not darkness
She lives in the light

And now the music for me, another show
Maybe for you another man, another love
It's sad to stay here alone
While my heart is with you
Clap again...
