oh she comes on like a fog  
and then she goes out like a neurotic dog  
so now i'm sitting her thinking all day long  
looking out the window with a blue hat on

find me an open grave  
just push me in  
then let me up to live again  
so she bought a little book  
and filled it up with names she never shook  
so i'm just one of them thinking all day long  
looking out the window with tha blue hat on  
find me a sky high cliff  
just let me try  
to jump right off maybe i'll fly  
looking out the window with the blue hat on

find me an open grave  
just push me in  
then let me up to live again  
oh she comes on like a fog
