Let's go baby girl let's go  
Let's get the mother fucker flow baby girl let's go  
Everybody in the club on the floor for sure  
Let's get some mother fucker slap on that's for sure  
Let's go baby girl let's go  
Let's get the mother fucker flow baby girl let's go  
All my niggas in the club on the floor for sure  
Let's get some mother fucker slap on that's for sure  
Now lets go

Never runnin' outta lingo  
40 water right back at 'em with another single  
Money longer than the neck on a Flamingo  
20,000 on a bet in the casino  
I got a partner on parole that just got out of Chino  
Not a rookie but a vet like Dan Marino

My favorite actor on the set Al Pacino  
This is a heater man, hot like Jalepeno  
Follow the leader  
40 from califoolya you hearin' in your speaker  
My life ain't no cartoon, it's not animated like Seta  
Hot like a hot air balloonist I'm just an opportunist  
The sooner the better you let me know that we can do  
this

Excuse me lady I've been lookin' at you from over here  
I was wonderin' if I could buy you a beer  
And maybe later we could cut  
I don't want to be your man  
I don't want to be the one, let's have a one night stand  
I know I don't know you and stuff  
But maybe we could get to know each other  
Over a couple of glasses of whatever's in this cup  
I don't wanna go and dance  
I don't wanna be the one, let's have a one night stand

Let's get it crackin' like some broken bones, money  
makin'  
Talkin' on them burnout phones, Cadillacin'  
Wood grain dash, and doors and floor mats  
Good game cash, I stash the store raps

PS2 clarity, diamond watches and super bam botches  
Eclair and cotches and choppers fresh out the boxes  
I like to polish my rims and tires hundred spokes wide  
With Armoral baby wipes 'cause my baby drink wine

Nothin' but the best on the flesh, just like sex  
Rubbin' lotion all on her Gluteus Maximus  
I don't see no ring all I see is Miss 60 jeans  
Walkin' through the club like she ready to do some  
things  
Full of that turtle, got 40 smellin' like skunk  
But everybody knows you can't smell yourself when  
you're drunk  
Posted at the bar like a star, I get a bar  
Two way me your number, I'll give a player a card

Excuse me lady I've been lookin' at you from over here  
I was wonderin' if I could buy you a beer  
And maybe later we could cut  
I don't want to be your man  
I don't want to be the one, let's have a one night stand  
I know I don't know you and stuff  
But maybe we could get to know each other  
Over a couple of glasses of whatever's in this cup  
I don't wanna go and dance  
I don't wanna be the one, let's have a one night stand

This is for my fuckers who lets in all my guys  
There's a new rapper in town, E40's on the rise  
Known for Heaven sake with it records and jive ties  
Business men always at work like Barry White  
The guy with all the slang in the game about the yay  
Gorillaz, Marine World, Africa, USA

You feel us, it's sick out here in the bay where we stay  
We kill us, I wish that somebody would come and pray  
Live life like there ain't no tomorrow, ain't no tomorrow  
Life is somethin' that you can't borrow, that you can't  
borrow  
Everyday's a holiday, everyday may we celebrate  
Everyday we modulate, everyday may we percolate

Excuse me lady I've been lookin' at you from over here  
I was wonderin' if I could buy you a beer  
And maybe later we could cut  
I don't want to be your man  
I don't want to be the one, let's have a one night stand  
I know I don't know you and stuff  
But maybe we could get to know each other  
Over a couple of glasses of whatever's in this cup  
I don't wanna go and dance

I don't wanna be the one, let's have a one night stand

Let's go baby girl let's go

Let's get the mother fucker flow baby girl let's go

Everybody in the club on the floor for sure

Let's get some mother fucker slap on that's for sure

Let's go baby girl let's go

Let's get the mother fucker flow baby girl let's go

All my niggas in the club on the floor for sure

Let's get some mother fucker slap on that's for sure

Now lets go
