out with my crew, crew  
headed to the I like you  
i caught my lil bitch what it do  
i just bought a pound and i'm gonna slide through  
out with my crew, crew  
headed to the I like you  
i caught my lil bitch what it do  
i just bought a pound and i'm gonna slide through

i got a zap of that romula and i'm ready to spark  
a box of them condiment and a bottle of dark  
beretta 9 millie in case they think i'm a mark  
pull up and i park and then i hop off the lot  
freshly kitted and fitted, from my head to my socks  
but she don't wanna suck me, she wanna fuck my  
watch  
my diamonds hella noisy, sound like an opera when  
they sing  
big ass medallion around my neck look like a  
playground swing  
she say i like your bling, i like your ice  
how much it cost? a few dollars but fuck the price  
got it from selling aisle candy, baserock rice  
without the soy sauce, calis and sleepless nights  
believe that, i'm a whale i'ma cop that  
and i'm locking what i see and what i'm looking at  
i bet you got that snapback and i ain't talking bout that  
cap  
pretty young thang like calaprack

out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through  
out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through

i told her put something sexy on, no bra, little dress  
and thong

i'm coming through with that extra long, ipod with the  
best songs  
when i'm horny, i don't play bitch  
hit the store got a bottle of your favorite shit  
i know how to please a woman, give her what she want  
when i'm coming  
i lock load and aim, then i'm up out on the road again  
all these females know my name, heard i was playing  
that golden thang  
too many traps to check, bitches eyes wanna have  
nasty sex  
but it's too much cash to get, i never leave empty  
handed, ask the bands

out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through  
out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through

king copper, panty dropper, give the bitch that boom  
chief rocker, shot glocker, night guapper,  
phantom driver, all white ghost, no opera  
street mopper, bitch wanna kick like soccer  
riding with a thing in my thing got a choppa  
fuck coppers, bang bang at your partner  
we body, you body boys no problems  
stick with it, no liars, admit it, â€¦be on fire  
rap pussy now i'm going driving,  
pulling that drink now i'm driving  
i'm a beast bitch, on your knees bitch  
off the hennesy mobbing looking like a freak bitch  
like lil b said i could fuck your bitch,  
so i'ma fuck your bitch, bitch

out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through  
out with my crew, crew  
headed to the I like you  
i call my lil bitch what it do  
i just bought a pound and i'm gonna slide through.
