There she go sliding down the pole  
There she go sliding down the pole  
There she is, there she is, there she go, there she go  
There she is, there she is, there she go, there she go

There she go sliding down the pole  
There she go sliding down the pole  
There she is, yeah, there she go  
There she is, yeah, there she go

They say her brain is in her ass but she really smart  
All about her cash never been a mark  
Raised in the trap seen a whole lot  
Glutinous maximums shape like a heart

Legs spread apart, trying to go to Clark  
Looking for the light but always find dark  
Some of my folks like trickin', some of my folks like  
pimpin'  
Some of my folks spit rap, some of my folks pitch crack

Give you a tycoon shower without the shower cap  
I got the money and the power sprinkle you a stack  
There she go sliding down the pole  
One dollar bills coming out her asshole

There she go sliding down the pole  
There she go sliding down the pole  
There she is, there she is, there she go, there she go  
There she is, there she is, there she go, there she go

There she go sliding down the pole  
There she go sliding down the pole  
There she is, yeah, there she go  
There she is, yeah, there she go

There she go down the pole  
That's daddy's little girl but he don't know  
If he finds out she'll be in trouble  
But if he don't her money doubles

Everyday she goes to work

Put her on stage they go berserk  
I'm way in the back blowing purp  
You throwing cash in the air, you suppose to flirt

She come out dem draws ass everywhere  
Don't keep her all night, pass her player  
'Cause she's my favorite, yes, she is  
I wanna see her dance naked, she the best in the biz  
Bitch

There she go sliding down the pole  
There she go sliding down the pole  
There she is, there she is, there she go, there she go  
There she is, there she is, there she go, there she go

There she go sliding down the pole  
There she go sliding down the pole  
There she is, yeah, there she go  
There she is, yeah, there she go

Bigger than all outdoors, she got booty galore  
Ass like I've never even seen before  
She cakey, she pickin' up her money off the floor  
It's crazy all the ballers in the club know

I called the crib told my broad, I ain't coming back  
home  
I then found me another chick I wanna bone  
They call me short, I'm nothing nice  
Been hangin' out in clubs all my life

Seen a wild ass stripper, hair was bushy  
Upside down with a bear in her pussy  
Lay up on the pole she can sit on a roof  
Slid back down she was getting it loose

There she go sliding down the pole  
There she go sliding down the pole  
There she is, there she is, there she go, there she go  
There she is, there she is, there she go, there she go

There she go sliding down the pole  
There she go sliding down the pole  
There she is, yeah, there she go  
There she is, yeah, there she go
