Oh, it's an angel's night
Hold me tight, and I will blow your heart of delight
Cause it's an angel's night
Treat me right, and I will take you on a flight
Cause it's an angel's night
Be my angel, girl
Lips so sweet, blonde girl
I need love tonight, take me on a magic ride
Be my angel, babe
I know you're in really good shape
You got dreams to sell, but I'll take you down to hell
Oh, it's an angel's night
Hold me tight, and I will blow your heart of delight
Cause it's an angel's night
Treat me right, and I will take you on a flight
Cause it's an angel's night
Hold me tight, and I will blow your heart of delight
Cause it's an angel's night
Treat me right, and I will take you on a flight
Cause it's an angel's night
Yeah, it's an angel's night
Ahhh, ahhh
Be my angel, girl
You're my horse, and I'm your pearl
Livin' could be worse
Heaven is a place on earth
Be my angel, babe
Skin to skin, can't escape
When you ring my bell
I will take you down to hell
[chorus]
Oh, baby, close your eyes
I'll be in paradise
Out of the blue
Dreams will come true
Oh, baby let us try
I'll take you high
I'll take you on a ride
Cause it's an angel's night
