You know how my heart can break - oohh  
Know how my heart can ache - oohh  
What can i do  
Baby i knew  
That it was dangerous loving you  
You know how my heart can break - oohh  
Cos loving hearts can't fake - oohh  
What can i say  
Guess it's okay  
Baby please stay - don't go away

You just make a little joke  
And i start crying  
Every time you leave the room  
I feel like dying  
I don't know how to survive  
But i'm still trying  
Babe it's you  
That makes the blues come true

You know how my heart can break - oohh  
Know how my heart can ache - oohh  
What can i do  
Baby i knew  
That it was dangerous loving you  
You know how my heart can break - oohh  
Cos loving hearts can't fake - oohh  
What can i say  
Guess it's okay  
Baby please stay - don't go away

When i know you're out with her  
My heart starts bleeding  
When you tell me you are true  
I feel you're cheating  
I don't count all that you give  
But i just need it  
Babe it's me  
That's helpless - can't you see

You know how my heart can break - oohh  
Know how my heart can ache - oohh

What can i do  
Baby i knew  
That it was dangerous loving you  
You know how my heart can break - oooh  
Cos loving hearts can't fake - oooh  
What can i say  
Guess it's okay  
Baby please stay - don't go away

Spoken:  
It doesn't matter if my heart is breaking  
Cos you can heal it with a smile

You know how my heart can break - oooh  
Know how my heart can ache - oooh  
What can i do  
Baby i knew  
That it was dangerous loving you  
You know how my heart can break - oooh  
Cos loving hearts can't fake - oooh  
What can i say  
Guess it's okay  
Baby please stay - don't go away

You know how my heart can break - oooh  
Know how my heart can ache - oooh  
What can i do  
Baby i knew  
That it was dangerous loving you
