Just lay beside me skin to skin  
Baby, love me in the name of sin  
I want you  
So tell me why are you so shy?  
Gonna make me cry  
Just follow your heart and soul  
Let your feeling take control  
Baby, did you ever chiisin'?  
Just listen to my heartbeat

I feel your heartbeat, love beat  
Totally emotion  
Heartbeat, soul beat  
Deep as an ocean  
Take me but baby, don't break me  
For I'm the angel that is by your side  
I hear your hearbeat, love beat  
Love is confession  
Heartbeat  
I need all of your passion burning  
Oh baby, I'm yearning  
For all the dreams that we could dream tonight

I feel your heartbeat  
It is a love beat  
I'll be the angel that is by your side

Baby, wake me up just with a kiss  
'Cause you know it's all I miss  
I love you, so let me feel  
That all the things you do are really real  
Please touch me, just everywhere  
I believe that love takes care  
Of all of us and what that we need  
Just listen to my heartbeat

I feel your heartbeat, love beat  
Totally emotion  
Heartbeat, soul beat  
Deep as an ocean  
Take me but baby, don't break me  
For I'm the angel that is by your side

I hear your heartbeat, love beat  
Love is confession  
Heartbeat  
I need all of your passion burning  
Oh baby, I'm yearning  
For all the dreams that we could dream tonight

I feel your heartbeat  
It is a love beat  
I'll be the angel that is by your side

I feel your heartbeat  
It is a love beat  
I'll be the angel that is by your side

Heartbeat, love beat  
Totally emotion  
Heartbeat, soul beat  
Deep as an ocean  
Take me but baby, don't break me  
For I'm the angel that is by your side  
I hear your heartbeat, love beat  
Love is confession  
Heartbeat  
I need all of your passion burning  
Oh baby, I'm yearning  
For all the dreams that we could dream tonight

I feel your heartbeat  
It is a love beat  
I'll be the angel that is by your side

I feel your heartbeat  
It is a love beat  
I'll be the angel that is by your side
