Kiss me,
Fly me up high, wanna feel like a frisbee.
High in the sky, oh I want you to kiss me.
Do it alright 'cause I know that you miss me.
Whoa ho!

I dreamed of you in so many lonely nights
With my body and soul.
And I know you were out bearing the city lights,
Just out of control.

Hey, I walked around and all I found was
Me myself just losin' ground.
I missed you, but I walked on thin ice.
Like a clown in disguise.
All the time there was your face,
You only you can end the race.
Love me in the heat of the night.
Babe I feel like dynamite.

Oh baby just kiss me,
Fly me up high, wanna feel like a frisbee.
High in the sky, oh I want you to kiss me.
Do it alright 'cause I know that you miss me.
Whoa ho!

Kiss me all over tonight.

Kiss me,
Fly me up high, wanna feel like a frisbee.
High in the sky, oh I want you to kiss me.
Do it alright 'cause I know that you miss me.
Whoa ho!

Kiss me all over tonight.
Kiss me all over tonight.
