Baby, love and sex are free
And will you come close to me
You make me happy when we sleep together
Don't you see
Love and sex and fun are free
And we can do it all night long forever
Do you want good loving from me
Oh, baby, I just want to say
Your touches me whenever you're near
And learning for sex is not a shame
Hold me tight, hold me right
We go sailing through the night
Baby, hey, make me stay
When the price is okay
Make me fall, take a crawl
Baby, would you have a ball
Wanna key to make me big
Like a brick in a wall
[chorus]
Come on, let's make it
What you're givin' I take it
Come on, go for my little secret spot
Oh, baby
Come on, let's make it
Having fun and don't fake it
Take my body and take me to the top
Tonight's the night
Everything I need is on due
My sexy body calls your name
Just bring your goodies to my place
Your love is so wild and so untamed
Yeah, I'm wild, you will see
And your body will agree
Take a chance, we will dance
We will fall into the trance
It's okay, when you say
We will do it at your way
You tell me how you wanted it
And I will be your babe
[chorus]
