Oh baby I'm missing you  
Missing you

So many nights of loneliness  
Just dreaming of every sweet caress  
I miss you  
And I still long to be with you  
The ocean of time keeps flowing on  
Roses of love are dead and gone  
Without you  
My heart is crying without you

Oh baby I'm missing you  
Miss the light in your eyes when I found you  
Can't you see I'm still missing you  
Miss the magic of love that's around you  
That was breaking my heart in two  
Oh baby I'm missing you  
So many nights of jealousy  
Asking myself where can you be  
I need you  
Baby I know how to treat you  
I wonder if you too feel the same  
And crying for love can't be a shame  
I love you  
You can believe me - I love you

I'm missing you

Oh baby I'm missing you

I'm missing you
