Oh baby Molly Dolly loves a lolly
And it's absolutely gee whiz golly
Molly's doing all that she can do
But I do more - Just for you

I know Molly Dolly she's absolutely cool
She's always - Willing - And hey she knows the rule
She's licking on her lolly - I'm telling no lies
Oh baby I can see - That fire in her eyes
I know Molly Dolly she's absolutely hot
She always - Gets it - Exactly on the spot
I wonder - Baby - If you could make me fall
For you - And be - My ruby doll

Oh baby Molly Dolly loves a lolly
And it's absolutely gee whiz golly
Molly's doing all that she can do
But I do more - Just for you
Oh baby Molly Dolly loves a lolly
Saying come on ollie it's so jolly
Molly's trying all that she can try
But when you call - I'll be most of all
Your ruby doll

I know Molly Dolly she's absolutely top
Forever - She never - Turns out to be a flop
Her lips are just like heaven
Her tongue is like a snake
She is always true - She never is a fake
I know Molly Dolly she's absolutely real
She makes it - She takes it - A case of touch and feel
But one thing - Baby - I want most of all
Come on - And be - My ruby doll

Your ruby doll
