But don't you know I want you.

Soul to soul.
Can't you see I'm falling,
Can't you hear me I'm calling
To reach your heart.
Soul to soul.
When the night is burning,
And the shadows are turning
To make us part.

Baby, don't cheat me.
And, if you need me,
Treat me right.

But don't you know I want you.
I will keep you from danger if you want me too.
I want you.
If you want me I'll make it, if you want me I'll take it
All that you're gonna give.
Don't you know I want you.
I will love you forever if you want me too,
I want you.
If you want me to reach you, if you want me I'll teach
you
How to love and to live.
Baby, cause I want you.

Soul to soul.
Say you stay forever.
I will make it together through night and day.
Soul to soul.
When the flames get higher
Feel the heat of the fire
Don't go away.

Baby, don't cheat me.
And, if you need me,
Tonight..
