Kiss me - Fly me up high
Wanna feel like a frisbee - High in the sky
Oh I want you to kiss me - Do it all right
Cos I know that you miss me
Oooh

I dreamed of you
In so many lonely nights
With my body and soul
And I know you were
Out there in the city lights
Just out of control

Hey I walked around and all I found
Was me myself just losing ground
I missed you - But I walked on thin ice
Like a clown in disguise
All the time there was your face
You only you can end the race
Love me - In the heat of the night
Babe I fell like dynamite

Kiss me tonight
Till you find the secret spot
Up and down and again
Baby lay by my side
And search for the honey pot
I know that you can

I'm doin' what you want to do
You know the stories about me are true
I'll kiss you - You know I care
Here and there and everywhere
Come closer - Let me feel your tongue
It's so good - It can't go wrong
Together we'll climb the hill
Oh what a thrill - If you will

Kiss me - Baby I want it I want you to miss me
Baby I need it I need you to kiss me
Baby I want it I want you to miss me

Baby I love you I love you so much

Kiss me (smack !)
