Just test my best
And find out if you like it
And the rest is dependant on you
Come close to me
And when we are united
You will see - it's all so true
Just test my best
And find out I'm not faking
Don't take less
When you can get it all
Just hold me tight
What you're giving I'm taking
Baby stay with me tonight
It's alright - test me baby

Let me find out what's your best
Let's make a passion test
Your body just tells the truth
Come on I've got my mind to lose
I'll test you - test you tonight
So move your body - do me right
Imagine - that I'm your guest
I gotta know how good's your best

Ohhhhh - come on baby
Ohhhhh - come on
Oh baby come into my nest
I'll give you a flying test
Come on girl just spread your wings
We'll do lot of special things
Believe me - I won't let you fall
Prove it - you're the best of all
Oh baby - let me suggest
Come on get ready for another test
