When the time is turning.
And the sun disappears.
When I feel that nightmares are around.
Come close and taste my tears.

That's when I cry for you.
When my memories strike me down.
Hold me just when I cry for you
All my thoughts are now about
Come close and hold me.
When the night is blue.
That's when I cry for you.

When the times are changing
And the good turns to bad
When I feel that my heart has lost control
I need the times we had.

Uuh, Uuh-uh-uh-uh...

Come close and hold me.
When the night is blue.
That's when I cry for you.
