I'm in the mood to love you, warm and tender
If you want me, I'll make your heart surrender
Killing you gently, kiss with such a thrill deep inside
Stay here tonight
You make my heart the temple of desire
I want your love so babe light my fire
Just feel my body and you'll know I need you right now
I need you now

I'm looking for a wild love, streams of fire, brought in
through my veins
Drive me mad, and join my fantasy
I'm looking for a wild love, waves of passion, driving
me insane
Please try, please try to set me free

Tonight I'm free but babe you cannot slave me
But when I'm hurt just take my hand and save me
At sudden we can rebow a part of the night
So hold me tight
I'm in love and strong, it gets me going
Come close to me, the winds have changed of blowing
Just hold my body and you'll feel I need you right now
I need you now

I'm in the mood to love you, warm and tender
If you want me, I'll make your heart surrender
Killing you gently, kiss with such a thrill deep inside
Stay here tonight
You make my heart the temple of desire
I want your love so babe light my fire
Just feel my body and you'll know I need you right now
I need you now
