Sometimes at night I know you're sad and lonely  
There's no one there to call you no one and only.  
And all your friends seem so far away, away from you.  
What can you do  
Want you to know I'll always be beside you.  
And through the night my heart will always guide you.  
Believe in me and you will find out that it's true.  
I'll be with you.

You give me all I desire in the deep of the night.  
You make my love spread like fire.  
Hold me close, hold me tight.  
You give me all I desire, all I need to survive.  
You keep the flames growing higher.  
Got a hold over me, over me.

Sometimes at night I know you feel like crying.  
Your heart's so weak and all your dreams are dying.  
You need a friend, you need a helping hand to stand  
the pain.  
You feel insane.  
Want you to know I'll always be beside you.  
And through the night my heart will always guide you.  
Believe in me and you will find out that it's true,  
I'll be with you.

You give me all I need,  
You give me all I long.  
Oh, baby, uuhh.  
You give me all I need,  
You give me all I long.  
You give me all I need...
