"Seven Seconds Away"

Hear me calling
It's like falling
Into the land of silence
You're so near and yet so far
Away
I'm not jealous
I'm not crying
But I can feel the violence
when I try so hard to make
You stay

You're just seven seconds away
That's much too much
I can't touch your heart
You're just seven seconds away
But babe it hurts
When we're worlds apart
You're just seven seconds away
You're just seven seconds away
I feel lonely
But I only
Miss all that inspiration
And the way you treat me right
At night
Please come closer
Hold my body
Gimme that big sensation
And that everlasting light
Inside

You're just seven seconds away
