Oh, baby, talk to your girl
You can tell her she's in danger
Talk to your girl, but leave her alone
Baby, talk to your girl
I'm your reason to exchange her
Talk to your girl, tell her to go home
Talk to your girl
T-t-talk to your girl
I talk, talk to my girl
My little highness looks a pearl
I tell her she is nice and sweet
She's got everything I need
So wow, wow, wow
Should I ever say goodbye
She's wild and sexy and just love
And best of all, she's mine all night
[chorus]
Talk, talk to my girl
She's got a lovely little pearl
It's deep down in a secret place
She hides it on the secret lace
Wow, wow, wow
Should I be facing danger
She's young and pretty, baby, see
I tell her to make love to me
[chorus]
I've got bad news for that bird
I'm not willing to share my love with her
The best thing she can do
Is move her ass away from you
And keep her hands off your body
Talk to your girl
Talk to your girl
[chorus]
