"Wish You Were Here"

Into the night I am falling
With no one by my side
Missing your love warm and tender
My heart feels like a satellite

I wish yes I wish you were here
In the dark of the night
And I miss you like crazy
I wish Yes I wish you were here
Want you right by my side
So the nightmares won't chase me

Babe it's more that a feeling
That sometimes comes and goes
I will hold you forever
You can trust me heaven knows

I wish Yes I wish you were here
Cos I'm lost on my own
Torn between my emotions
I wish yes I wish you were here
And I feel so alone
Like a tear in the ocean

I wish Yes I wish you were here
Cos Im lost on my own
Torn between my emotions
I wish yes I wish you were here
And I feel so alone
Like a tear in the ocean

I wish you were here
