"Let's Go"

Visit "[Let's Go](#)" on [MotoLyrics.com](#)

Everyday we hit the ground running
We keep the crowd jumping, we keep the club
bumping, we give you all something
It don't matter how we flip our style because we make it
happen
So versatile I hit you screaming or I'll hit you rapping
Now what-cha yapping, shut your trap before you catch
a slapping
Stop your whining, it's our time and this was bound to
happen
Now put your hands together and get to clapping
Clap-clap-clap, before I get to clapping

You know that we rock, ain't afraid to roll, you know that
the concrete
Will crack your skull, I'm trying to make about a
thousand o's
So let's go. you know that we rock, ain't afraid to roll
You know that the concrete will crack your skull
I'm trying to rip about a thousand shows, so let's go

Every night we coming out swinging, we get the crowd
singing
Ears ringing, listen, we do our damn thing man
It don't matter how you knock us down because we're
still kicking
It don't matter how you hate my style because I'm still
spitting
It don't matter how we flip our style because we make it
happen
So versatile I hit you screaming or I'll hit you rapping
Now what-cha yapping, shut your trap before you catch
a slapping
Stop your whining, it's our time and this was bound to
happen
Now put your hands together and get to clapping
Clap-clap-clap, before I get to clapping
