

E-Town Concrete "Soldier"

Visit "[Soldier](#)" on MotoLyrics.com

If God forgives, then God forgive me
Because the pain I 'cause is the pain I feel
underachieve
there is not much I'll ever be when all I see
Is the evil that surrounds me

If God forgives, then God forgive me
If God forgives, then God forgive me
You don't forgive
All I see is the evil that surrounds me

It's amazing how quickly the mind matures
When the world outside creates internal war
I know, I know what's right, I do the wrong thing
My heart and soul will fade until emotions die

May the fire in my eyes light the way for me
May the bridges that I burn take out my enemies

If God forgives, then God forgive me
If God forgives, then God forgive me
You don't forgive
All I see is the evil that surrounds me
