(coming up, coming up)
(coming up, coming up)

I've been hiding, forgotten
I almost got away
But now it's all coming back
And it's time for me to stay
I've seen it all pass me by
In my hibernating state
Now I am here once again
And it's time to meet my fate

When I'm on my own
(coming up, coming up)
You're still there
When I'm all alone
(coming up, coming up)
Always there

When I close my eyes
Takes me back to the start
Where it all seemed so right
Now we've drifted apart
When I close my eyes
Then we're back at the start
Where it all seemed so right
How come you're still in my heart

This is the perfect moment
I'm on to something good
There is no fear
I will always know I did what I could
If something stands in my way
Then I will break down the door
So please don't stand in my way
'cause then it's a full-out war

When I'm on my own
(coming up, coming up)
You're still there
When I'm all alone

(coming up, coming up)
Always there

When I close my eyes
Takes me back to the start
Where it all seemed so right
Now we've drifted apart
When I close my eyes
Then we're back at the start
Where it all seemed so right
How come you're still in my heart

When I close my eyes
You are on your way tonight
You come all of the way
To my heart

I've been hiding, forgotten
I almost got away
But now it's all coming back
And it's time for me to stay
I've seen it all pass me by
In my hibernating state
Now I am here once again
And it's time to meet my fate

When I close my eyes
Then we're back at the start
Where it all seemed so right
How come you're still in my heart

When I close my eyes
Takes me back to the start
Where it all seemed so right
Now we've drifted apart
When I close my eyes
Then we're back at the start
Where it all seemed so right
How come you're still in my heart
