"Angles Crying"

Yeah hey&
Come follow me
I've got all systems go nothing standing in my way
I should be far down the road but I'm not
Something's holding me back like a wild boar attack
and I've got you by my side but your not
Do you remember when
we thought there was no end
a shooting star around the sky
Do you remember when
you were from heaven sent
how far the wind could make me fly
Angles crying, when you're far away from me
Always trying, I will make you see
Angles crying (the angles cry), when you're far away
from me
No denying (there's no deny), we were meant to be
I tumbled from the sky
where I was soaring so high
never thought that I could fall back down to the ground
Somewhere along the ride
I found that we can't stop the tide
it's time for me to buy another round
Do you remember when
we thought there was no end
a shooting star around the sky
Do you remember when
you were from heaven sent
how far the wind could make me fly
Angles crying, when you're far away from me
Always trying, I will make you see
Angles crying (the angles cry), when you're far away
from me
No denying (there's no deny), we were meant to be
Angles are crying
Angles are crying
Angles are crying
Yeah hey&
I've got all systems go nothing standing in my way
I should be far down the road but I'm not
Something's holding me back like a wild horse attack
and I've got you by my side but your not

Angles crying (the angles cry), when you're far away
from me
Always trying (I always try), I will make you see
Angles crying (the angles cry), when you're far away
from me
No denying (there's no deny), we were meant to be
