Hold your horses tonight,
Let's go wild for a night
Hold your horses tonight,
Lose control for a night
'til the morning comes

So here it comes again
You'll love it when you hear it
Cause we're leaving now
We'll never look back

We're on the move again
Join in or step aside
We go for all time high
And that's what we're gonna reach

We're going loco, time to go insane
All common sense is going down the drain
We're going loco, time to go insane
All common sense is going down the drain

Hold your horses tonight, everybody's here now
Let's go wild for a night, 'til the morning comes
Hold your horses tonight, everybody's here now
Lose control for a night, 'til the morning comes

We're going loco, time to go insane
All common sense is going down the drain
We're going loco, time to go insane
All common sense is going down the drain
