It's time to cut the slack now
You are gonna hear me balin' truth
Back out from the underworld I'm here now
I've got something to prove
So hush and keep up now, serious, I'm telling you that
she's one of a kind
Keep all your fingers to yourself
I'm here to take back what's mine
Hear me say...

This time you're all mine. Let it shine

I can't get you off my mind, I just wanna be with you
You're the best I'll ever find, I wanna be with you

I'm on a mission from God
I'm crazy, this is the war that I will win for sure
My middle name is Overkill
Keep watching, you'll see that I will score
Boom, Boom, when we come across
The sea what ever we search for we will find
Keep all your fingers to yourself
I'm here to take back what's mine
Hear me say...

This time you're all mine. Let us shine

Hear me I'm here to take what's mine
I just wanna be with you
What ever I'll search for I will find
I wanna be with you
