All the graves of the ones remembered in a desert we
call home
All the slaves of the cold December find a voice to call
their own
Stand up we are united in the eyes of the greatest
storm
Line up we are ignited, this world will be reborn in...

Five, Four, Three, Two, One
This is New Years Day- so rise from the ashes
Faith will find a way- like lightning crashes
We'll keep marching on and on and on...
It's New Years Day, so rise from the ashes

Ring a bell so the serpent hears us
Let her know that we're tried and true
No the beasts, they wont get near us... and we're not
scared of you
Light 'em up now
Start the countdown in...

Five, Four, Three, Two, One
(Let's go!)
This is New Years Day- so rise from the ashes
Faith will find a way- like lightning crashes
We'll keep marching on and on and on...
It's New Years Day, so rise from the ashes

Let the eagle fly
Freedom in the night
Let the eagle fly
Legends never die

Five, Four, Three, Two, One
This is New Years Day- so rise from the ashes
Faith will find a way- like lightning crashes
We'll keep marching on and on and on...
It's New Years Day, so rise from the ashes

So rise from the ashes
