Lonely among the dust and fog  
Hungry for what the scriptures taught  
Angry at all the love that's lost  
Ready to heal our battle scars  
A Holy War

This is one last Victory Call  
Time waits for those who want it all  
Watch their weapons fall!

Missing another life that's lost  
Warning to all the paths we've crossed  
Freeing ourselves from what they sold us  
Starting to know the world we fought  
A Holy War

This is one last Victory Call  
Time waits for those who want it all  
Watch their weapons fall!

This is one last Victory Call  
Time waits for those who want it all  
Watch their weapons fall!

This is one last Victory Call  
Time waits for those who want it all  
Watch their weapons fall!

This is one last Victory Call  
Time waits for those who want it all  
Watch their weapons fall!
