Help me Jesus I feel so alone
Waitin for the day when you come home
I'll shut the door
I'll beg for more
And I'm going to live forever
And I'm going to live forever
Hello, Never

I'll search the faces in the crowd
I'll get too drunk, then I'll pass out
I'll sit in the darkest bars
I'll love the deepest scars
And I'm going to live forever
And I'm going to live forever
Hello, Never

I'm dreaming Jesus' love again, oh oh
It's awful serious this time Jane oh oh
Won't you come and crucify me
Judas kiss me and then deny me
Drink my blood and eat my body
Come on bitches dignify me

Lovely lovely watch the girls go by
Oh Janey, you make me want to die
So don't talk to me
No don't you talk to me
Cause I'm going to live forever
And I'm going to live forever
Hello, Never
