Baby stay closer  
Game is not over  
Let me tell you something  
I wanna rock your heart

Don't leave me alone  
Together we'll do better  
Walk into the rhythm of love

Do you know  
You let me on to be right  
I know

Do you know  
You turn it around  
And you made it a game  
I will play for you

Gimme your emotion  
Love is my devotion  
You really drive me crazy  
My dream come true

You're my angel  
Take me so higher  
No I'm not a loser  
You can't be blue
