My face is stuck in a cheshire grin
I met an english girl
She's like the toast of my whole world
We hit the gas just in order to get away

Ooh ooh ooh
And then we dance all through the whole night
Ooh ooh ooh
And then we dance all through the whole night

We'll storm the beaches
Head to Mexico
We'll cruise the streets all night
And catch a rock and roll show
We have to do this just in order to get away

Ooh ooh ooh
And then we dance all through the whole night
Ooh ooh ooh
And then we dance all through the whole night

Keep dancin', keep dancin', keep dancin', keep dancin'
Oh honey, keep dancin', let's keep dancin', let's keep
dancin'

Hoo hoo
Hoo hoo
Doot doo doo
Doot doodoo
